

MOHAMED CHEHIMI

Bizerte, Tunisia | himdanchhimi@gmail.com | +216 51 863 287

PROFESSIONAL PROFILE

A rigorous and versatile Tech Lead with over a decade of experience in full-stack development and team leadership. Proven expertise in guiding complex projects—from specification and development to delivery—while mentoring teams and ensuring robust, secure solutions. Adept at communication and thrives in collaborative, multidisciplinary environments.

PROFESSIONAL EXPERIENCE

Team Lead | Thinktank Business AG, Tunis

- Led the overhaul of a state property management system by designing a data exchange warehouse and establishing the migration strategy for three legacy applications.
- Acted as the key bridge between management and the development team: defining priorities, distributing tasks, motivating collaborators, and monitoring progress.
- Authored comprehensive technical documentation for the new system.

Tech Lead | Tritux Group, Tunis

Automated Development Reporting System (Jan 2022 – Nov 2022)

- Conducted R&D and built a POC for an automated reporting system analyzing developer activity on GitHub, GitLab, and Bitbucket to improve project visibility.
- Planned the MVP and led the delivery of the first project batch: "GitHub Integration".
- Trained and upskilled the project team on the new tools and processes.

Import Title Management System (Jun 2019 – Sep 2020)

- Managed a multi-stack team (Spring Boot / Angular) to build a new system, establishing the CI/CD pipeline and Dockerizing the application.
- Wrote production deployment plans and led the onboarding and training of new team members.

Professional Training Activity System (Jun 2019 – Sep 2020)

- Served as the technical referent in workshops and managed the team's daily workflow through task breakdown, code reviews, and realignment.

- Established branching strategies, maintained test environments, and handled production deployments and hotfixes.

Full Stack Developer | Tritux Group, Tunis (Jan 2019 – May 2019)
& **FrenchCo, Tunis** (Oct 2015 – Feb 2018)

- Developed and maintained multiple web and mobile applications across diverse stacks: **Symfony (PHP), Node.js, AngularJS, MongoDB, MySQL**.
- Key accomplishments: Led a full CRM migration from native PHP to Symfony; built GDPR compliance modules; integrated payment systems (Stripe, PayPal); implemented JWT authentication; and developed various API integrations (YouTube, Vimeo, Uber, Firebase, MailGun).

SEO & Web Developer | PowerMultimedia, Bizerte (May 2010 – Aug 2012)

- Managed SEO for an e-commerce platform, implementing an automated crawling/price comparison system and integrating PayPal.
